Subject: Oct 18th, Nov 7th Delta Science Program, CDFW Seminars Announced

California Water Quality Monitoring Council

Hello,

The Delta Science Program, CDFW Watershed Restoration Grants Branch, and the Surface Water Ambient Monitoring Program will jointly host two upcoming **Brown Bag Seminars**. The seminars are free and open to the public, with no RSVP required.

Both talks will take place at **Park Tower Building - 980 9th street, Suite 350, Sacramento, CA** and will be webcasted.

Talk 1:

[A Novel Approach to Managing Water for the Environment](#)

Thursday, **October 18**, 12:00 – 1:00 p.m. [WEBCAST](#) (Password: Mount)

Jeffrey Mount, Ph.D. Senior Fellow, Public Policy Institute of California; Professor Emeritus, UC Davis

The common regulatory approach to managing water for ecosystems is to set minimum flow and water quality standards. This talk will discuss an alternative approach to defining ecosystem water budgets that can be managed like a water right, including flexible timing and location of use and the ability to store and trade.

[Event Flyer](#)

Talk 2:

[Synthesis within the Interagency Ecological Program: Growing to Meet Increasing Needs](#)

Wednesday, **November 7 (New date!)**, 12:00 – 1:00 p.m. [WEBCAST](#) (Password: Conrad)

Louise Conrad, Ph.D. Program Manager II, DWR

This seminar is part of the [IEP series](#) of Brown Bag Seminars. The IEP has conducted five decades of monitoring in the San Francisco Estuary, resulting in numerous syntheses. This seminar will discuss recent IEP synthesis efforts and how they are being used (or can be used) to inform management.

Best,
Nir
